Created by: Erik Lars Myers

| Grain/sugar | Amount | Hops/Herbs | Amount/Time |
|--------------------|----------------|------------|-------------------|
| Pale Malt | 5 lbs (43%) | Wilamette | 1.72 oz (60 mins) |
| Malted White Wheat | 5 lbs (43%) | Lavender | .5 oz (5 mins) |
| Melanoidin Malt | 6.7 oz. (3.6%) | Peppercorn | 1.67 oz. (5 mins) |
| Caramunich II | 6.7 oz. (3.6%) | | |
| Torrified Wheat | 6.7 oz. (3.6%) | | |
| Acidulated Malt | 5.3 oz. (2.9%) | | |

Yeast: WYeast 3724 (Belgian Saison)

Other notes and instructions:

Single step infusion mash, rest at 154F for 60 mins, normal 60 min boil.

I used dried lavender flowers and whole, freshly-crushed (in a mortar and pestle) peppercorns. The peppercorns were a blend including white, black, green, and red peppercorns.

Remember to let it ferment very warm - this yeast can go up to 90F. I also like to let my saisons go through extended secondary fermentations.
